Sexual Health Service Update

Stoke-on-Trent & North Staffordshire Sexual Health Services

Summer 2021

Services update

Sexual health clinics are still continuing to run an appointment only service.

All service users are advised to call the team on **0300 7900 165** in the first instance, for advice on how to access the service they require. This may be a clinic appointment, a self-testing kit which can be ordered online, or a telephone consultation.

If you are signposting service users to call sexual health, please advise them that services are in high demand, and phone lines may be busy.

PrEP update

PrEP (pre-exposure prophylaxis) is a drug which is taken by HIV-negative people before and after sex, which reduces the risk of them becoming infected with HIV.

PrEP is available for free from our sexual health clinics, to people who meet the required criteria.

If a service user or patient asks about the availability of PrEP, please ask them to call our sexual health service on **0300 7900 165** to discuss PrEP, and for an assessment of the suitability of PrEP.
